1 Test Results — Flood Risk (Depth-Damage) (MKM-DD-001)

Tests run on **23 March 2026 at 12:05:57**.

Table 1: Test Results Summary — Flood Risk (Depth-Damage) (MKM-DD-001)

Total Tests	29
Passed	29
Failed	0
Skipped	0
Duration	0.00s

Table 2: Detailed Test Results — Flood Risk (Depth-Damage)

Test Description	Acceptance Criteria	Result	Time
At distance = characteristic length, factor must equal $1/e \approx 0.368$.	<code>abs(f - 1.0 / math.e) < 0.001</code>	Pass	0.000s
At 5x the decay length, attenuation should be $\leq 1\%$ ($e^{-5} \approx 0.0067$).	<code>f < 0.01</code>	Pass	0.000s
Negative distance is clamped to zero; must return 1.0.	<code>compute_attenuation(-100) == 1.0</code>	Pass	0.000s
At zero distance, attenuation factor must be 1.0 (no decay).	<code>compute_attenuation(0) == 1.0</code>	Pass	0.000s
Zero decay length means instant decay; must return 0.0 for any distance $\neq 0$.	<code>compute_attenuation(100, 0) == 0.0</code>	Pass	0.000s
Every hour from 0..n must be present in output, in order.	<code>hours == list(range(len(gauge_readings)))</code>	Pass	0.000s
Flood depth must be non-negative at every time step.	<code>r['depth_m'] >= 0.0</code>	Pass	0.000s
Each hydrograph entry must contain hour, wse_m, depth_m, and flooded.	<code>'hour' in r; 'wse_m' in r (+2 more)</code>	Pass	0.000s
Empty gauge readings must return empty property hydrograph.	<code>build_property_hydrograph([], 8.0, 1.0, 0.9, 6.0, 0.3) == []</code>	Pass	0.000s
When floor level exceeds peak WSE, no time step should be flooded.	<code>r['flooded'] is False</code>	Pass	0.000s
With travel time of 5 hours, first 5 hours must show zero flood depth.	<code>r['depth_m'] == 0.0; r['flooded'] is False</code>	Pass	0.000s
Property hydrograph must have same number of time steps as gauge input.	<code>len(result) == len(gauge_readings)</code>	Pass	0.000s

Test Description	Acceptance Criteria	Result	Time
Low-elevation property at gauge location must flood at peak water level.	<code>max(peak_depths) > 0</code>	Pass	0.000s
Slope from 10m to 8m over 1000m should be 0.002 (2m/1000m).	<code>abs(s - 0.002) < 1e-6</code>	Pass	0.000s
Flat terrain (equal elevations) must return MIN_SLOPE, not zero.	<code>s == MIN_SLOPE</code>	Pass	0.000s
Slope must be the same regardless of flow direction (uses absolute value).	<code>s1 == s2</code>	Pass	0.000s
Zero horizontal distance must return MIN_SLOPE to avoid division by zero.	<code>t == 0.0; s == MIN_SLOPE</code>	Pass	0.000s
Monotonicity: deeper water must produce higher velocity at constant slope.	<code>v2 > v1</code>	Pass	0.000s
Negative depth is physically invalid; must return zero velocity.	<code>compute_manning_velocity(-1.0, 0.005) == 0.0</code>	Pass	0.000s
Negative slope (downhill in opposite direction) must use absolute value.	<code>v_pos == v_neg</code>	Pass	0.000s
Manning velocity at d=1.0m, S=0.005, n=0.04 should be ~1.77 m/s.	<code>1.5 < v < 2.0</code>	Pass	0.000s
Slopes below MIN_SLOPE must be clamped to MIN_SLOPE to avoid	<code>v == v_min</code>	Pass	0.000s
Monotonicity: steeper slope must produce higher velocity at constant depth.	<code>v2 > v1</code>	Pass	0.000s
Zero depth must produce zero velocity (no flow without water).	<code>compute_manning_velocity(0.0, 0.005) == 0.0</code>	Pass	0.000s
Zero roughness coefficient causes division by zero; must return 0.	<code>compute_manning_velocity(1.0, 0.005, roughness=0.0) == 0.0</code>	Pass	0.000s
Travel time for 500m at d=1.0m, S=0.005 should be well under 1 hour.	<code>0 < t < 1.0</code>	Pass	0.000s
Monotonicity: greater distance must produce longer travel time.	<code>t2 > t1</code>	Pass	0.000s
Zero depth produces zero velocity, so travel time must be infinite.	<code>t == float('inf')</code>	Pass	0.000s
Zero distance must produce zero travel time.	<code>t == 0.0; s == MIN_SLOPE</code>	Pass	0.000s

1.1 Test Document History

Date	Version	Description	Author
05-Mar-2026	1.0	Initial test suite (29 tests)	D. Kelly
07-Mar-2026	1.1	29 test(s) added; 29 test(s) removed (total: 29)	D. Kelly
18-Mar-2026	1.2	117 test(s) added (total: 146)	D. Kelly
22-Mar-2026	1.3	18 test(s) removed (total: 128)	D. Kelly
23-Mar-2026	1.4	99 test(s) removed (total: 29)	D. Kelly
